TAB No. 30

MEMORANDUM FOR: Chief, Technical Intelligence Division

SUBJECT: Need for instrument to satisfy star measuring requirement.

REFERENCE: Memo of 14 March 1962 to Chief, TID - Memo No. 26

1. Since writing above referenced memo it has been brought to my attention that the [redacted] could satisfy our requirements for star measurement with a comparator that could be used for other production problems. The suggestion is a good one since it results in a more universal measuring instrument. 25X1A

2. It was also suggested that either the line enhancement capability developed by [redacted] could possibly be adapted to the [redacted] or that some line enhancement technique developed by the [redacted] could be adopted. 25X1A 25X1A 25X1A

3. The purchase of a [redacted] is obviously always a "safe" buy in that they have an excellent record of up-time and longevity. Approximately seven years ago the [redacted] worked with [redacted] of the Naval Observatory in developing a projection star measuring comparator and I am sure that their development would be to our advantage. 25X1A 25X1A 25X1A

4. It is requested that the purchase of a [redacted] Comparator be coordinated with Chief, TID/TAB. 25X1A
